

Project Manager Certification

Mastering Enterprise Planning, Agile Scrums, and Waterfall Delivery on Liferay DXP

COURSE OVERVIEW

The Project Manager Certification course is an intensive planning and execution curriculum designed to equip project coordinators, delivery directors, and enterprise scrum masters with the skills to run Liferay DXP implementations with total alignment.

COURSE MODULES

Module 1: Project Initiation and Planning

Define project scopes, draft project charters, identify key stakeholders, and establish robust resource plans.

Module 2: Agile and Waterfall Execution

Master sprint planning, Kanban boards, Gantt charts, and change management processes to run execution phases with maximum efficiency.

Module 3: Monitoring, Closing, and Stakeholder Communication

Analyze project performance metrics, prepare status reports, manage project closing checklists, and lead client deliverables hand-off.

Duration: 5 Weeks (Self-Paced)	Target Audience: Project Managers, Scrum Masters, PMO Directors	Prerequisites: Management Basics & SDLC Lifecycle
